# FROM PLANT TO PUFF

We continuously work to use organically grown biomass, ethically harvested materials, and biodegradable packaging while we continue to reduce our carbon emissions, use renewable energy, and reduce waste.

## Ingredient Sourcing

Our commitment to transparency, quality, and natural preservation means our raw materials—hemp, wood pulp, bamboo, Acacia gum, and more—and our rolling paper manufacturing process are as sustainable and environmentally-friendly as possible. That's why we uphold internationally-recognized ISO 9001, 14001, and 45001, and GMP (Good Manufacturing Process) standards.

## Sustainability Initiatives

Responsible environmental stewardship has long been a central tenet of Republic Brands' operational philosophy.

We work to support the preservation of natural spaces and biodiversity across our operations, and we adhere to an Environmental Code of Practice that promotes the use of environmentally sustainable materials and practices that help reduce our carbon footprint by minimizing waste, reusing, and recycling materials wherever possible.

We also support public and private initiatives working to protect the environment to mitigate and reduce the effects of climate change.

**Republic Brands is committed to stewardship of the natural resources needed to sustain both our business and Earth across our vertically integrated supply chain.**

**ABOUT US**

**Republic Brands™ is the category leader in rolling products with a rich history, track record of innovations, and dynamic portfolio that includes the most iconic brands in the roll-your-own and make-your-own category.**

Our family-owned company with its 200-year-old legacy is known for pioneering natural Acacia gum plus product innovations such as sustainable bamboo, hemp, rice, and flax fibers for papers and cones.

Republic Brands has a wide-ranging, far-reaching distribution network making our products readily available across the United States.

The largest and longest-running rolling company in the United States, Republic Brands relies on a vertically integrated worldwide network of growers, processors, and manufacturing along with our stateside sales, service, and distribution capabilities – that’s what we call From Plant To Puff.

**Production Locations**

Republic Brands’ ultramodern production locations are in five countries — the United States, Canada, France, Spain, and Austria.

Read more about our locations on our website under Global Footprint.
